

CITGO HEATING OIL PROJECT NOTICE

TO: Penobscot Tribal Members in Citgo Project Service Area

FROM: Kirk Francis, Chief
Betsy Tannian, Director, DHS

DATE: March 22, 2010

The project, which starts on March 23, 2010, is open anyone who submitted a completed application. You will receive services in one of the following ways:

- For those who use oil, a list of names was provided to Malenfant's Fuel along with authorization to deliver 100 gallons of #2 fuel. You may contact Malenfant's at 827-4003 to develop a delivery schedule.
- For those who use #1 fuel (kerosene) Malenfant's fuel is authorized to deliver 100 gallons. You may contact Malenfant's at 827-4003 to develop a delivery schedule.
- For those who use propane, a letter will be mailed to you that will include information about accessing services.
- There will be a one time delivery of fuel only. It is most important to please check and make sure your tank will take a hundred gallons.

Please note that this is a short-term project; we have been informed the project is scheduled to conclude the end of June, 2010. We will continue to accept applications in the meantime. Please be advised that we could stop taking applications without notice.
