Power Hour

“the positive place for kids”

Power Hour: Making Minutes Count is a comprehensive homework help and tutoring program for all Club members. Power Hour provides members with the support, resources and guidance necessary to complete their homework – and start the school day with a sense of confidence and ability. As members complete homework assignments and bonus activities, they accumulate Power Points, which may be used to obtain Power Rewards – prizes, activities and incentives. In addition, Power Hour offers tutoring assistance for members who need additional work in special areas.
