

# SMOKE ALARMS

## STAY SAFE INDOORS THIS SEASON!

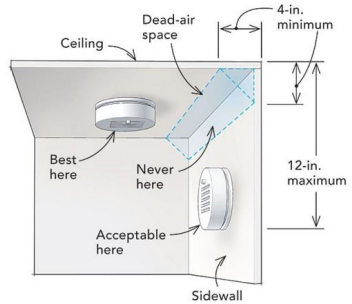

PROPERLY INSTALLED AND MAINTAINED  
SMOKE ALARMS SAVE LIVES.

### INSTALL

#### HAVE ALARMS THROUGHOUT YOUR HOME

- Combo smoke/carbon monoxide in the kitchen or central hallway (10 feet away from cooking appliance), and
- Smoke alarm for each bedroom and floor of the house, including the basement.

Where to place a smoke alarm:

### MAINTAIN

#### TEST YOUR SMOKE DETECTORS ONCE A MONTH

- Non-replaceable 10 year batteries: If the alarm has a low battery and starts to chirp, replace the entire alarm.
- Any other type of battery: change batteries once or twice a year, depending on the device.

### REPLACE

#### REPLACE EACH ALARM EVERY 10 YEARS

Take the smoke alarm off the wall or ceiling and check the date of manufacture. If it is less than 10 years since the manufacture date, continue use. If not, replace the alarm.

Residents of Indian Island are eligible for:

- 1) Combo Smoke/Carbon Monoxides Detector, and 2) Up to 3 Smoke Detectors.
- To update or upgrade your current devices, free of cost, return the slip below to the health department.
