

Dear Students,

You have been recruited by the United States Department of Defense to construct a timeline outlining Penobscot Military History and Penobscot Tribal members' contribution to the defense of the United States. The research has been done and the information is available.

Penobscot member's social status in the State of Maine and United States, as well as Military information, has been included in the research material.

Your mission, if you choose to accept it, is to put this information into chronological order on a timeline. There is a lot of information and you will present your panel to the class as you arrange it on the timeline.

Once the timeline is constructed, you will complete a series of questions about Penobscot Military History using the timeline to answer the questions.
